Negotiations Update

Your Negotiating Committee has met with the Company on Monday – Wednesday of this week. Unfortunately, the company could not meet on Thursday. We will hopefully meet with the Company again Friday.

We have tentatively agreed to 14 non-economic items, and are waiting to hear back from the company on 7 of our other proposals.

There have been no talks about economics as of Wednesday, May 21, 2008. Your Negotiating Committee is prepared to present proposals that affect the economics of our membership next week.

There will be more updates as necessary to keep the membership informed. Don't forget to check the website and hotline as well.

Let's stand strong together and show the Company how serious we are about getting the best possible contract we can get.

**UNION
POWER!**

Jobs · Security · Prosperity
